CENTLEMEN.---AT THE WRITTEN request of a large proportion of the members of the House of Assembly, as also the personal solicitation of various influential cliticens. I beg to offer myself as a candidate for the Mayorally. The Provisional Act of 1853 will be inoperative on the 30th of the present month, and the Incorporation Act of 1862 will be then alone in force, under which the election of a Mayor and Council is valid.

or the short of the short of a Mayor and Councilis valid.

The Act of Incorporation of 1862 can be worked and made subservient to many needful improvements in the City, whilst the more recent legislative enactment as to the one half of one perceit tax on real estate (which is now paid to the Colonial Treasurer), will turnish sufficient means to liquidate the present City liabilities and leave the corporate revenue for 1865 free.

Should you elect me I shall take means to reduce the expenses of the corporation very considerably, as also to suggest to the Councillors the urgency of equalizing the taxes, that they may be a lighter burden to the poor man.

When serving as senior Councillor, for nearly 15 months, my sole object was the good of the cit zen-, and you may rest assured if you make meyour Chief Magi-tate, I shall strive, without icar or favor, to do my duty faithfully.

I have the honer to be, Genlamen, Your myst obedient servant, John COPLAND. Victoria, 17th Oct., 1864. ocis

OUR MINING PROSPECTS. Several months ago, when we attempted t prepare the public mind for an unfavorable result from the present year's labors a part of the people and the Government of the neighboring Colony of opening up and developing such mineral districts a were then displaying them-elves in the Kootanais region, we were charged by som of our contemporaries with injuring th country. It is not often, however, that fore sight ruins anything; and those who took our advice about Cariboo in time are now reaping the advantages of it Caribon, this year, has been a severe strain upon the purse of the mining and the speculative population generally. Like Washoe with California, has been rich, and has drawn both wealth and population to the country; but it has like Washoe al-o, in its very richness, encouraged an elaborate system of speculatio which, sconer or later, was bound to resul in financial loss. There is no one to-day any more than there was in the golden yea of '62, who doubts the richness of Caribo but there are few persons now who believe it its being a profitable investment for men of limited means. The claims which are a present turning out fortunes to their possessore, are probably unequalled by the mining claims of any other country in the world; but the companies who have been untortonate through a variety of circumstances. no way dependent on the yield o gold, have expended much more money in the same space of time, than mining partnerships elsewhere ever entail. Much of the labor and expense has been rendered comparatively speaking useless in many cases as much from the want of water on the top of the ground as from its superfluity underneath. In other instances claimhave been obliged to stand idle from the slow progress of joint stock companies in carrying on operations of drainage; aid again, we have had the energy of our miners wasted to a great extent on imperfect machinery. Taking all the immense difficul ties, therefore, with which the mining popul lation has had to contend, it is evident the prudence must enter more largely into ou uture operations in Caribon. That the gold deposits in this celebrated region are enorcountry will for a moment doubt; but that nate mining population is what few now will become like the expensive mineral districts o

While the Northern mines are thus shutting out the poor miner, other and more important British Columbian gold fields are un folding themselves to the gaze of the enterprising gold seeker. The opinions published in another cotumn, of the Colonial Seer tary of the neighboring colony, give us some ides of the richness of the recent discovered mines on the Kootanair. Coupled with the report of Mr. Haynes, they show a fied that will in a little time absorb the thousands of disco. tented miners who are now squandering their energies in many parts of California. The individual yield of Kostanais proves large enough, indeed, to induce even the maderately successful to leave the scene of their labors for the richer deposits of the mines in the British territory nais have contented themselves with spreading over a very limited portion of the country, the feet tends more to show the richnes of the diggings already opened than to indi cate that the agriferous tracts are at all cor fined. From the experience of those who have been much over the country between Cariboo and these new mines, as well as the theory of geologists, all that wast region running parallel with the Rocky Mountains from Quesnelle Like to the 49th degree of latitude is gold bearing in its character. I is clear, therefore, that we are but on the

tions for the capitalist and the laborer-ne

threshold of our gold discoveries. Next spring, according to the statement of the Kootanais miners, upwards of 20,000 men are expected to leave Boise for the new gold fields, and we do not doubt that the excitement will produce a considerable stream of emigration also from Califor ia So far as the various routes are concerned no person who values speed in transit will think of taking the circuitous and tediou line of travel by way of Oregon, when he can perfo in the journey in half the time by the Fra-er; but for provisioning the miner the case is different. Here Olegon will have for a considerable time the advantage Her flour and her cattle will be placed at the minor's cabin cheaper than we are likely to be able to do it, unless, indeed, the exploring expedition which has been recently sent or by way of Kamloops, reports in favor of the pavigation of the Columbia. If we can obtain this water communication, we shall be able to take the great balk of the trade so soon as stea ners are built, from our neighbors, and reduce the land travel to little over one hundred and seventy miles. If on hother hand, we are obliged to resort to the routby way of Hope, we shall have to conter ourselves with the passenger traffic, coupled with the dy goods and hardware trade Under any circumstance: it is necessary that the people of both colonies should exer themse ves in the matter. Governor Seymou and his Colonial Secretary in this respec have set a good example and have show themselves alive to the importance of British Columbia's connection with her own mines The personal inspection of the Kontanais by Mr. Birch, along with the very practical reput of Mr. Hayres, shows that a new era is being inaugurated in developing the auriferour regions of the neighboring colony, and promises well for the all important work o connecting the Fraser with the Columbia by

KOOTANAIS EXPRESS, - We are informed that Mr. F. J. Barnard, the energene Carino expressrian and stag . proprietor, intends to place a line of stages on the route to King ensis, as soon as the Cariboo line is partially closed for the winter season. Mr. Barnaid believes that the Kontanais trail will be practicable the whole year round.

BRITISH COLUMBIA.

The steamer Enterprise arrived from New Wes inster on Saturday evening, with 100 passenger and about \$40,000 in treasure. The news from Carribon is unimportant. The

reather continues very fine. The Bed-rock Drain and reached the Caledonia claim, and had drawn anon Creek was good, and also from Cunninghan From Kootanais the news is most encouraging.

Mr. Birch, the Colonial Secretary, and Mr. Bushby and returned from their trip with the highest opinions of the country as a mining region. The Columbian of Saturday contains the following particulars:-

"It is with much pleasure that we announce the affe arrival of the Hon. A. N. Birch, with Mr. Bushby, after an absence of one month and wenty six days, during which he has visited the Kootanais mines. Mr. Birch left on the 31st Annuat and arrived here on Wednesday m rning, naving come from Hope in a canoe. The trip was somewhat rough and trying one, and during it the packer to the expedition, Mr. Perrier, gave out, and Mr. Evans a traveling companion, was obliged to make a ball at Suoyous Lake on the return rip. Mr. Bushby looked considerably knocked up, but Mr. Birch looked even more view hand hearty than before starting. The news from free promising mines, although a starting than the mental travelled by the heartship genor from Mr. "Laynes which we published a few days ago. And Leamuch as an official report will be published as on a practicable, we are unable to lay better presented irons. BRITISH COLONIST PUB

saticipated by the interesting report from Mr claynes which we published a few days sage. And I assumeh as an official report will be published as on as practicable, we are unable to lay before are readers more than a few detached items. The jumpe to Koutanais was performed in 26 days, the return trip occupying 24 days, the disance from thope by the route taken being estimated at 499 miles. The diggings at present being orked are upon a small stream to which the niners have given the name of "Wild Horse reek." This creck lies within the confines of the Rocky Mountains, in about 50 N. L., and where already all'the town has apraig up, containing three restaurants, several stores, a brewery, and the usual et ceteras of a new mining town. Fifty e-mpanics encauced in sluicing were taking ful from 230 to \$1000 a day, respectively, while 100 rockers were averaging from two to six ounces are diem. Eight companies had commenced runding tunnels into the hill; but only one had advanced sufficiently to become remunerative. This, the Gold Hill Hill Co.. was taking out an ounce a lay to the hand. Shafts were also being aunk in the bed of the stream, but had not reached any iefinite results up to the departure of the expedition. From 200 to 370 mem were prospectin in the neighborhood and numerous reports of rich and extensive discoveries were constantly brought in, but were not sufficiently a butchuteded. Alhough there is little reason for doubting that fresh and rich diggings are being discovered. The number of men residing upon Wild Horse Creek, (we trust the Government will adopt a better name) was estimated at 750, from 300 to 400 of whom it a expected will winter there. The packers and other persons well informed upon the subject agree in the opinion that a very large influx may be expected in the carly spring from the Boise country. Forty pack trains were just reported to Mr. Haynes as on their way from Lewiston to Malla Walla. The claim owners ensider their claims good for at least three more years, and appear to enter weighing from a quarter to the production of the process were taken from the Pindall claim, not as the largest by any means, as the three partners retained the largest pieces to take with them to California, from whence also we may reasonably look for a considerable innoigration in the spring So deeply is His Excellency impressed with the importance of these mines that Mr. Cox has been appointed Resident Magistrate and Gold Commissioner for that distract, and to which he will at once repair. It was the intention of Mr. Haynes o layover the claims from the 1st November to at May, so that these who desired might have the privilege of suspending operations during the vinter months.

Mr. Moss says he met Anaghum for the list time at Stowi, and not ten miles east of he Slide. Now, Anaghum only came to stowi in consequence of the previous arangement, made with him eight or ten dayelore, east of the Slide. He brought theight horses to Stowi in consequence of the revious arrangement, and what is more, retused to deliver them up till he got the promised paper. This is a very different version from that of Mr. Moss, who merely says "he rave Anaghum a paper, to order that Mr. Brow might know him, and because hought he might be useful as a guide." A retty guide indeed! Mr. Moss, however conferes that Anaghum met him at Stowi at his invitation. Now, where and how did he invitation. his invitation. Now, where and how did he his invitation. Now, where and how did he cat that invitation, and why did Mr. Most inne to Stown expressly to meet him? Since March. 1863, I have been residing with my wife and colidren at "Newsculles," about 20 miles above Bella Coolla, trading with the Indians, and during that period I have on several occasions dealt with "Anaghim" and his tribe—exchanging blankets, pants, gunpowder, and ether articles, for furs and skins—sometimes money passing between us on such dealings. In the month of Aprilla-Si, my partner. Adam Ross, in company with four others, let Newsculles for Cariboo; on their route they would have to pass through Anaghim's country, I remained at Newsculles. THE BELFAST RIOTS.

It has been resolved by the Irish Executive, in consequence of the recent disturbances, to again make Belfast the head quarters of a military district, of which Brigadier General Haines will take command. The depots now quartered there are to be removed, and the barracks will be immediately occupied by a full regiment, said to be the cupied by a full regiment, said to be the 74 h. The general is to reside in the town.

MR. WADDINGTON'S ANSWER TO MR. MOSS.

VICTORIA, October 29th, 1864.

Editor British Colonist: — In your paper of to-day I find a letter from Mr. Moss, in which he contradicts some statements which I published on the Brainek Arm Expedition, or dwhich have reference to himself. My, by-ct in publishing those charges was to nake known the trutt, and show what is vertched policy had been adopted by the Government, and show what is vertched policy had been adopted by the Government, and attempts to throw a general incredit on what I have published. As he looks upon the men who go past him, the sight does not realise the con-ception of "City" life which he has formed from books or from his own imaginings. He ception of "City" life which he has formed from books or from bis own inagings. Ile Mr. Moss then says "Mr. Brew did not live the Indians whiskey, neither did he give been orders on him for powder or clothing. Now the order acas given to Anaghun, but wing to Mr. Moss having left on the gunbout, was paid to Mr. Ellis by Mr. Brew, and Anaghum still has it. As to the whiskey. Mr. Moss adds, "it is needless to say Mr. Brew did not give the Indians whiskey."

Also adds, "it is needless to say Mr. Brew and the wind in what trade or profession is it otherwise!—but, on the whole, they wear a more lively and cheerful look than been in preference to his own men.

Ception of "City" life which he has formed from books or from his own inginings. Ill in the Supreme Court of Civil Justice.

In the Supreme Court of Civil Justice, which he has learned (very montreelly) to associate with City men, and expectably with the dealer: in money. Over but, eneed, no doubt, some of these men are occasionally—and in what trade or profession is it otherwise!—but, on the whole, they wear a more lively and cheerful look than a youther set of business men we have seen. They are intent on their work; they have no time to stand and pa ley with you; but they have no time to stand and pa ley with you; but they have appointed Trade Assignee of the time to stand and pa ley with you; but they go about their business with liveliness and Mr. Muss denied, in toto, the charges respecting the trading away of Government flour and blankets, and as a proof produced a recipit for two barrels of flour, some pork and beans, forming a very small part of some ten ons of goods, which were stored at Majr scarced of information or it execution of commissions. But was not Mr. Moss openly charged with these transcripts by these transcripts. beans, forming a very small part of some tenons of goods, which were stored at Maj r Robertsons. But was not Mr. Moss openisharged with these transactions by two on is own men, both at Stowi and Bella Coola? and that to his own face; and did they not threaten to make it known in New Westminster! But Mr. Moss adds, 'no complaint was made by Mr. Brew at Bella Coola very possibly not; 'and that if these statements hid any foundation they would have seen made at headquarters and not to me's tr. Moss mast know that most people are very averse to making such complaints, and if made to me in prefere ce, I suppose it was because they thought I was more likely to suitish them than the Government.

Mr. Moss's reasoning on the non-arrest of Anaghum is most extraordinary. He exculpates him, it is true, from being actually aresent at the murder of Mr. McD sould's arrly, and then in answer to the other heavytharges against him says "suspicion is no aroot," But was Anaghum, or was he not the incipal abettor of the murderers, if indeed ted did not actually assist in that of Manning? And what kind of justice is that which induct the severest punishment on white men or highway robbery or any violation of the subtice peace, but overlooks these crimes in a tender mercies towards Indans; considerable region provincial places in truth, it is the elderly gentle nen who show in a tender mercies towards Indans; considerable and on or ouncet with the subtice peace, but overlooks these crimes in a tender mercies towards Indans; considerable and on or ouncet with the construction. better and keep their your honger than the perincipal abetter of the murderers, if indeed he did not actually assist in that of Manning? And what kind of justice is that which inducts the severest punishment on white ment or highway robbery or any violation of the abitic peace, but overlooks these crimes in a tender mercies towards Indians; considers the possession of steller goods as no proof, not even the beginning of a proof, and reliases to accept circumstant at evidence and only the participated on the cime cannot be obtained?

Anaghum, as a cinet, was to a certain extent responsible for the crimes committed on its territory and by his tribe, indeed there and be little doubt he participated in them; and this crafty villain, this abetter of murderers, this highway robber who had treets the highway robber who had treets.

have finished this letter."

Hundreds of houses have been knocked down in Paris, in order to allow of a magnificent square being made round the Chape's Expiatoire, built on the spot where the remains of Louis XVI, and Marie Antoinette were, in common with those of many other victims, thrown into a pit dug to receive them. The ground was secretly purchased in 1795 by a devoted adherent, Descloseaux, who walled it in and gave it the appearance of a garden. At the restoration of the of a garden. At the restoration of the Bourbons search was made for the bodies of the king and queen, which were discovered, placed in coffine, and conveyed by torchight

THE SENIOR MEMBER OF THE PROPESSION Our evening contemporary, the Times, in its ast edition, charges Mr. DeCosmos, as the senior member of the profession," having written the leading article which ap peared in the Cohoniar of Saturday mornng, reflecting on the discreditable conduct of certain honorable gentlemen in trying to foist Mr. Culverwell into the House. In a second article, making a pitiable attempt to palliate the disgrace he would inflict on the most dignified body in the land, he reiterates his accusation, making the charge an opportunity or assailing the senior member for the city and the union party generally, because, forsooth! they are striving to maintain "the onor and respectability of the House." We rould inform the obtuse editor of the Times, would inform the obtuse editor of the Times, and also the shame-faced supporter of Mr. Culverwell who feebly follows his lead in yesterday's chronicle, that Mr. DeCosinos only returned from New Westminster on Saturday evening, and that he had neither seen, written, nor inspired a single word on line of the article referred to. Moreover, we would further inform this disinterested aloo seed to Mr. Culverwell's cause, who avows that he would support that gentleman in preference to any man of the highest statuon, wealth, and ability, that our article only expressed the opinion of nine-tenths of the whole community, in showing Mr. Culverwell's unfitness for the high position of a lawmaker in our country, and the shameful conduct of those members of the House who would so prostitute its dignity and weight as to strive to secure his election. There is but onto feeling among right-thinking men on this matter, as the editor of the Times cannot fail to know well unless he wilfully closes his cars to the expression of popular rentiment. Our contemporary writhes under the charge of a sunsippion of venality; when closes his care to the expression of popular sentiment. Our contemporary writhes under the charge of a suspicion of venality: when a journal which has assomed to itself the position of the exponent of Pritish hotor, and sortiment, and dignity in the colony can stoop so low as to use all its efforts to place such a person as Mr. Culverwell in the honorable position of member of the Legislative Assembly, can it wender that a charge of venality should be made and also that it should be believed?

had the extraordinary run in London of nearly 400 consecutive nights, is about to be produced on our boards. We have not seen the cast of characters, but are informed that the notable character of Lord Dundreary is to be entrusted to one of the Stock actors and that Mr. Wheatleigh will personate Asa Trenchard. We certainly hope that we may be wrongly informed on this point, the idea of the part of Dundreary, who is the life and No Cards.

THE EARTHQUAKE.—At about five minutes before seven o'clock on Saturday morning, this city was visited by another shock from an earthquake, sufficiently severe to occasion much alarm. The oscillation which was from west to east lasted for about 10 seconds and was accompanied by a loud rumbling noise, the sensation being something similar to that experienced in travelling at full speed in a railway carriage. There were two or three-heavy shocks during the vibration, one of which was so violent that it might be taken to resemble the sudden partial checking of the train by a collision with some small object. Some persons who were indulging in a recumbent position under the sheets at the time say, that they fancied a team of horses had been hooked on to their "wooden walls" and had started off at a gallop coming ic contact during their gambols with two or three pine stumps. We have heard many different and some amusing Lord, and even he, without debate of the affect produced by the con-

Only on one occasion (1858) does he remember experiencing a shock at all approaching in severity that of Saturday morning. The oscilation as on this last occasion has almost invariably been from west to east, and he accounts for this by supposing that the internal convolsion of the earth beneath has to find vent in the cratter of Mount Baker situated to the east of us. Mr. HARRIS AND THE SAANICH ELECTION .-THE IRESPRESSIBLE PIDWELL.—Mr.> Pid- It is a subject of general remark throughout Santa Clause Headquarters and Fancy Bagzar, well had better take our advice and that of the city that Mr. Harris has ruined his pros GOVERNMENT STRKET, an elector at the nomination on Saturday, pects for the coming contest for the Mayoralty and elector at the nomination on Saturday, and be content with his snug berth. It is not at all likely that an under-government official, in reception of a comfortable salary, will be allowed to waste the public time and money by electioneering all over the country, and by sitting in the flouse, if successful, to the neglect of the duties of his office. Mr. Pidwell will doubtless see the wisdom of this riew of the matter, and stay away from the election proceedings altogether, leaving a clear field for Mr. Cochrane. Culverwell was proposed as a "fit and proper person," by Mr. Henry Simpson, and Crinolines and Corsets. seconded by Mr. Thos. Skitch. Mr. John J. Cochiane was preposed by Mr. Riobaid Hall and seconded by Mr. Wilham Thompson. Mr. John T. Pidwell was proposed by Mr. Henry McHugh, seconded by Mr. John Smith. After speeches from the three candidates, followed by one from Mayor Harris, in favor of Mr. Culverwell, a show of hands was taken, resulting in six for Culverwell, two for Cochrace, and four for Pidwell. The Returning Officer accordingly declared the majority to be in favor of Mr. Culverwell, upon which a pall was demanded on behalf of the others, which will take place to-day batween the houte of eight and four.

A CARD TO THE PUBLIC ADIES AND GENTLEMEN, -IT IS only one month since I offered through the advertising columns of a morning paper to be the Family Fishmonger of this city. I find by experience that it is desirable that some person should take up the business and attend to it regular y. I have acted justly in my dealings and tried to merit the patronage which some of the best families in the city have afforded me. For the success which I have already mat with I beg to offer my sincere thanks, and acknowledge that the approbation of my customers has often seemed to make my burden lighter. It shall be my constant study to deserve their good will, and with their confidence by integrity and courtesy. It has always been my maxim in business to make my customers' wishes my pleasure.
